

KINGS **SIXTH**

A Level 15 - 1

29 January – 13 May 2024

The Guide

This booklet is an outline for Students, Parents and Carers for the next 15 weeks providing revision topics and activities.

It is written as a countdown from week 15 to 1, week 15 commencing on 29 January 2024. Week 1 is the week commencing 6 May as the Summer 2024 examination series schedule starts the week afterwards on 13 May 2024.

This guide is being presented to help support students focus their preparation and revision to help them demonstrate the progress they have made.

The subject pages refer to the different components and topics in each subject and the assessment to be taken. There are a number of abbreviations you may find helpful;

CA – controlled assessment

AO – assessment objective

LA – learning aim

NEA – non-examined assessment

LO – learning objective

The change in language between qualifications is a reflection of the relevant exam board specifications. The subjects are listed in alphabetical order.

The Schedules

The table below shows an outline of the schedule applied across all subjects.

0	13 May 24	Summer 2024 external examination series begins

In addition, a number of after-school sessions and Easter holiday preparation days will be offered to students to supplement schoolwork.

Using the Guide

Please do not feel daunted by the information in this booklet. Start by crossing out the pages that cover subjects that do not apply to you. Remember you only need to focus on one week at a time. Tick off each week as you cover it. If you start to give regular time to purposeful preparation, then you will find, as the weeks go by, you will be well-placed to achieve your potential.

There are many ways of reviewing content and skill. One essential ingredient is planning your time. The last page of this booklet shows an example of a weekly plan. This is also available on the webpage under revision. Alternatively, you may wish to plan your weeks in your own format or use an online planner for example getrevising.co.uk. Whichever format you use for planning your time you will need to have a plan for when you are fitting your preparation into each week and when you are covering each subject.

Remember that it is essential to take breaks and to find time each day when you can switch off and relax. A weekly plan is not only an opportunity to plan your work but also a chance to plan when you will take a break. Work is best approached in short bursts of approximately 30 minutes with short breaks in between.

Please ask your Teachers if you are unsure about anything or require any resources, help or advice.

Students have shown great resilience and determination in preparing to take examinations this year. It is essential to keep up the hard work now and we wish you the very best of luck.

15	29 Jan 24	UNIT 1: Media products and audiences	Media sectors (e.g., magazines, film) and company structures (conglomerates, independents) differ in objectives, purpose, and audience, shaping diverse industry landscapes.	
14	05 Feb 24	UNIT 1: Media products and audiences	Media companies function through integrated processes, employing synergy for cross-media promotion. Various job roles, like director or editor, contribute to production processes in media organizations.	
13	12 Feb 24		HALF TERM	
12	19 Feb 24	UNIT 1: Media products and audiences	Distinguish between traditional and digital advertising in media, evaluating diverse methods like audio-visual (TV, trailers), print, digital (online, social media), radio, and gaming promotions.	
11	26 Feb 24	UNIT 1: Media products and audiences	Assess product distribution to media audiences, considering technological convergence's impact alongside traditional methods. Explore production techniques such as mise-en-scène, camerawork, editing, and sound in creating audio-visual media products.	
10	04 Mar 24	UNIT 1: Media products and audiences	In media production, consider elements like print/web layout, house style, color scheme, and font styles. Explore audio aspects: jingles, music, sound effects, and presenters. Analyze production techniques, applying media theory, denotation/connotation, and macro concepts like genre, narrative, and representation.	
9	11 Mar 24	UNIT 1: Media products and audiences	Define audience terms: mass/mainstream and niche. Explain demographic profiles using data sources like PAMCo, RAJAR, and BARB, covering age, gender, ethnicity, location, socioeconomic status, sexual orientation, lifestyle, and psychographics.	
8	18 Mar 24	UNIT 1: Media products and audiences	Assess how media products fulfill the needs of both mainstream and niche audiences, considering interaction and mode of address. Evaluate primary research methods such as questionnaires, focus groups, interviews, and online surveys.	
7	25 Mar 24	UNIT 1: Media products and audiences	Utilise secondary research sources like the internet, books, journals, magazines, newspapers, and television. Research aims include assessing product reach, understanding audience needs, gaining competitor awareness, and conducting SWOT/PEST analyses. Analyze audience research for product development, future market possibilities, and trends, utilising quantitative and qualitative data analysis methods like ranking and scoring.	
6	01 Apr 24	UNIT 2: Pre-production and planning	- Assess the ethical impact of temporary media products on audiences, considering issues like violence in film, body image debates in social media, and media-induced moral	

5	08 Apr 24	UNIT 2: Pre-production and planning	<p>panics. Evaluate legal and regulatory aspects, including the roles of regulators (ASA, BBFC, Ofcom, IPSO, PEGI), censorship, self-regulation, and the use of copyright and intellectual property.</p> <p>- Evaluate factors in planning media production: consider production type implications, financial constraints, revenue streams, time constraints, personnel, facilities, legal issues (Freedom of Information, Intellectual Property, Data Protection, Copyright), regulatory issues (ASA, BBFC, PEGI, Ofcom, PRS, IPSO, W3C), and ethical issues (freedom of speech, disturbing imagery, offensive material).</p>	
4	15 Apr 24	UNIT 2: Pre-production and planning	Evaluate client requirements and target audience considerations. Cover types of client briefs, reading and analyzing them, and tools like mind maps, mood boards, and SWOT analysis. Consider target audience factors: socio-economic status, age, gender, ethnicity, psychographics, geo-demographics, sexual orientation, and mainstream versus niche preferences.	
3	22 Apr 24	UNIT 2: Pre-production and planning	Plan pre-production using project tools (software, spreadsheets), timescales, logistics, daily planner, forms, staffing roles, and research involving the team or external agencies. Create varied pre-production docs (proposals, schedules, SWOT). Evaluate effectiveness by justifying content, assessing suitability for purpose, and gauging appropriateness for the target audience in media production.	
2	29 Apr 24	UNIT 6: Social media and globalisation	Comprehend social media usage, including technology application, creating/distributing products, comparing technologies for individuals and media industries, product functions, and professional vs. personal purposes. Explore global reach, communication, and globalization aspects.
