

**GCSE 15 - 1**

**22 January – 15 May 2024**

## The Guide

This booklet is an outline for Students, Parents and Carers for the next 15 weeks and includes appropriate revision topics and activities.

It is written as a countdown from Week 15 to Week one with Week 15 commencing on 22 January 2024. Week One is the week commencing 29 April as the Summer 2024 examination series schedule starts the week afterwards on 6 May 2024.

This guide is being presented to help support students focus their preparation and revision.

The subject pages refer to the different components and topics in each subject and the assessment to be taken. There are a number of abbreviations you may find helpful;

CA – controlled assessment

AO – assessment objective

LA – learning aim

NEA – non-examined assessment

LO – learning objective

The change in language between qualifications is a reflection of the relevant exam board specifications. The subjects are listed in alphabetical order.

## The Schedules

The table below shows an outline of the schedule applied across all subjects.

In addition, a number of after-school sessions and Easter holiday preparation days will be offered to students to supplement schoolwork.

### **Using the Guide**

Please do not feel daunted by the information in this booklet. Start by crossing out the pages that cover subjects that do not apply to you. Remember you only need to focus on one week at a time. Tick off each week as you cover it. If you start to give regular time to purposeful preparation, then you will find, as the weeks go by you will be well-placed to achieve your potential.

There are many ways of reviewing content and skill. One essential ingredient is planning your time. The last page of this booklet shows an example of a weekly plan. This is also available on the webpage under revision. Alternatively, you may wish to plan your weeks in your own format or use an online planner for example [getrevising.co.uk](http://getrevising.co.uk). Whichever format you use for planning your time you will need to have a plan for when you are fitting your preparation into each week and when you are covering each subject.

Remember that it is essential to take breaks and to find time each day when you can switch off and relax. A weekly plan is not only an opportunity to plan your work but also a chance to plan when you will take a break. Work is best approached in short bursts of approximately 30 minutes with short breaks in between.

Please ask your teachers if you are unsure about anything or require any resources, help or advice.

Students have shown great resilience and determination on preparing to take examinations this year. It is essential to keep up the hard work now and we wish you the very best of luck.
