Kings' Sixth, Cheddar, Somerset

GCE A Level and Level 3 Press Release 2025

### **A Level and Level 3 Results**

Kings' Sixth students are celebrating their superb A Level and Level 3 results, which are the best in the last five years. Over 55% of grades achieved were grades A\*-B and 80% A\*-C. We are also celebrating exceptional vocational results with 100% BTEC Business Diploma and BTEC Sport Diploma students achieving at least one distinction and several students with multiple distinctions.

There were incredible individual achievements including: **Jessica B achieving 3 grade A\*s**. Jessica is going to attend the University of Bath to study Business Management and Marketing. **Joshua C, Lola W, Martha W and Chiara T** all achieved two grade A\*s and at least one grade A. They intend to study Physics, Molecular Medicine, Theology, Religion and Philosophy of Religion and Architectural Studies respectively at universities in Bath, Bristol, Cambridge and Cardiff. **Alex T** achieved 1A\* and 2 grade As, and intends to study at Swansea University. **Matilda F** also achieved 1A\* and 2 grade As and will take up her place to study at the University of Cambridge.

Amongst the many superb results are those Kings students who have made exceptional progress since the end of their GCSE studies: **Adam M, Sam H, Ava M, Hamish M and James G**. These students have worked hard throughout their A Level studies. That drive has ensured they have achieved significantly above the national average, compared to students with the same prior attainment. They are heading to exciting destinations to study a plethora of subjects including Psychology, Economics, Maths and Sociology.

Every Sixth Form student should be delighted with their results and enthusiastic about their next steps, including competitive apprenticeships and fantastic higher education places. Head of Sixth, Miss Arabella Beacham, commented "Our Sixth Form students should be very proud of themselves as I am of them for their attitude and approach to their studies and exams. Through new initiatives which continue to be implemented and embedded, students have developed resilience and independence whilst continually supporting each other. It has been a pleasure to work alongside them in the last two years of their Kings journey. They are a fantastic group of students who have worked tirelessly for themselves, each other, the Academy and the community being great role models. I am certain every student will build on these most recent successes as they embark on their next steps. I look forward to hearing about their progress and wish everyone the best of luck. Well done and congratulations!"
